

WHERE
BUILDING
IS ART

"I started Woolems Luxury Builders over 40 years ago with my own hands and a dream. I am truly thankful that it has grown and sustained all these years during tough economic times. This business is more to me than bricks and mortar. It's the ability to take care of our employees and their families, contribute to our community and to fully express my craft as a Master Builder, Carpenter, Artist and Visionary. In turn, with deep gratitude, our team delivers the highest quality craftsmanship and establishes long lasting relationships with our clients based on trust and respect.

Over the years I have led and mentored passionate and engaged professionals in the construction industry, and therefore I am surrounded by outstanding talent and a devoted team. Together, at Woolems, we partner with our clients and collaborate with Architects and Designers to provide creative problem solving, aggressive schedule management and fearless ambition.

My goal is and always has been to manage and exceed our client's expectations, treat their money like my own and build a one of a kind masterpiece that we can all be proud of.

I am honored that Woolems continues to serve its clients as a leading luxury builder; and I welcome you to join me and the Woolems Team as we continue to grow."

- Jim Woolems, CEO & Founder

TESTIMONIALS

"I would like to take this opportunity to acknowledge and recommend the Woolems Construction Team for their leadership and professionalism on working a mutual project in the Key Largo area. Our firm has had the opportunity, many times, to work with Woolems and wish to once again commend their team on the excellent work they are doing for our client. I highly recommend the Woolems team to anyone who is looking for a successful outcome and risk limitation."

Jon D. Olson | NCARB | LEED APPeacock + Lewis Architects and Planners, LLCNorth Palm Beach, Florida

"Woolems, Inc. is a rare builder of fine homes who offers the best quality construction at a reasonable value with a delightful process. Their construction and administrative staff are professional and caring. We live in a world defined by "minimum standards" established by specifications and architectural detailing. While respectful of defined minimum standards, the Woolems team seeks to find the "highest standards" possible for every part of every project and leave the Owner of each project with a building that will stand the test of time."

Allan Shope | Architect | Allan Shope Architect
 Hudson, New York

"Choosing to build a custom home was one of the biggest decisions that either of us had ever made. We looked around at a few builders and it was an easy decision... Woolems, Inc. Their professionalism and quality was far above our expectations, and the friendly staff was a pleasure to work with. Everyone who had a hand in the process, from plans to design to construction and the finishing touches was friendly and did their best to accommodate our needs and wants. We are extremely happy with the outcome.

We recommend Woolems to anyone who is looking for a quality built house constructed by a caring group of people who truly make a house a home."

Michael A. Leven | President, COO | Las Vegas Sands Corporation
 Boca Raton, Florida
